Dear Infinity Middle School Community,

It is an honor to serve this community as the new principal of Infinity Middle School! I am humbled and excited to work with students, parents, and teachers as the school and greater community grow and expand.

As we continue to build toward a strong future together, I want our community to know my deep commitment to every student's well-being, academic growth, and safety. As a school, our priority is to ensure that every student knows they are a valued member of our school and have every opportunity to advance their learning and discover their pathway of purpose. Through cultivating strong relationships, our outstanding team of teachers and staff will provide all students access to rigorous and relevant learning opportunities and prioritize care of every child's whole well-being. We also want students to have a middle school experience where they can engage and explore their interests in and beyond the school day through athletics, visual and performing arts, clubs, and other activities.

In my first year as Principal, I look forward to deepening the relationships across our community by honoring traditions and understanding the history that makes Infinity Middle School the special place it is. We will continue to elevate all voices, perspectives, and beliefs and take them all into account to build positive partnerships for success. We must work together to model citizenship and reinforce the importance of human connection and relationships.

My family is deeply committed to the promise and mission of public education. My wife, Briana, is a middle school counselor in the Cherry Creek School District, and we have two daughters, Blaise (age 8) and Sloane (age 5), who attend Cherry Creek schools. My family keeps me grounded, gives me purpose, and balances my life in ways that help me better serve our students and lead this community.

Your partnership with our school is paramount! Please consider joining our Infinity PTO, Accountability, or PASS parent group(s) so we can work together to champion your child's success and every student in our school. As we prepare for the new school year, I look forward to every opportunity to connect with each of you and invite you to reach out with any questions or feedback at 720-886-6000.

Go Vipers!

Dr. Dan Hanson  
Principal, Infinity Middle School
